PRIVACY POLICY OF  
THE JOBTEASER SERVICE  
24/01/2022

We wish to answer any questions you may have regarding the processing of your personal data. The purpose of this Privacy Policy is to inform you of the measures we have taken to ensure the highest possible level of privacy and protection of your personal data.

It is intended to inform you about the processing and management of any personal data you provide us with, the reasons why we collect it and how we ensure its security.

This Privacy Policy has been written in accordance with the principles of the General Data Protection Regulation ("GDPR").

If, after reading this document, you still have questions, you can email us at dataprotection@jobteaser.com and we will happily respond.

1. General overview

JobTeaser sits in the center of an integrated ecosystem dedicated to guidance and professional development, where three stakeholders interact:

- Students and graduates;
- Our partner schools and universities;
- Our partner companies.

JobTeaser defines the purpose and the means of the processing related to the use of the platform by the Users.

JobTeaser is a limited company ("société anonyme"), the registered office of which is at 19 rue Blanche, 75009 Paris, France, registered with the Paris Trade and Companies Register under the number RCS 508 271 715.

JobTeaser offers an integrated ecosystem dedicated to the professional development of any student or graduate who has registered on the Service (a “Member”). That Service may also be accessed directly from partner higher education institutions (the "Institutions") equipped with JobTeaser's Career Center, offering additional features and exclusive content, managed by each Institution through specifically authorised representatives (the “Administrators” of the Institution). Additionally, the Service offers recruiters (the “Recruiters”) and companies (the “Companies”) the ability to post job opportunities, company profiles and career events on the Service, in order to better source and hire talented students and graduates.

JobTeaser is the data controller of any personal data you have provided us with during your use of the Service.
Other parties might be involved with processing your personal data during your use of the Service as follows:

- Recruiters are responsible for data processed as part of any recruitment process they set up and/or recruitment events they organise. They are therefore the natural recipients of data from JobTeaser as regards applications to job opportunities or recruitment events.

- Institutions equipped with JobTeaser’s Career Center are responsible for data processed as regards their students and graduates in relation to their studies. They are also the recipients of data describing the activity of their students and graduates on their Career Center, as stipulated in detail in Article 5 below.

Each Recruiter and Institution collects and processes data in accordance with the applicable law, subject to its own responsibility.

JobTeaser also offers Guidance Modules, such as tools and exercises to help Members learn about themselves and develop their skills.

2. Scope of this Privacy Policy

Our Privacy Policy applies to any User of our Service.

JobTeaser offers several categories of user accounts, each associated with specific services.

This Privacy Policy applies to the personal data we collect from Members, Recruiters, and Administrators. These Users are defined in the applicable Terms of Use to which this Privacy Policy is attached.

This Privacy Policy also applies to data that we collect from Users of the Guidance Modules.

3. Type of data collected

We may collect personal data about you, such as your identity, your professional profile and technical logs.

For the optimal running of the Service, we will ask you for some personal data.

When collecting this personal data, we will inform you of mandatory data using an asterisk (*). All other data is purely optional.

Personal data we collect is data that personally identifies you such as information in relation to:

- your identity: surname(s), first name(s), email address(es), address, telephone numbers, age group, gender, etc;
- your professional profile:
  - for students and graduates: higher education institution attended, CV, desired position, job opportunities for which you have applied, your profile and your search criteria, career events for which you have registered, test results from Guidance Modules, etc.
○ for Recruiters: the data of the company you represent, your professional address and telephone number(s), the profiles you are looking for, your position;

○ for Administrators of Institutions: the name of the Institution you represent, your position;

In addition, we will also collect the computer logs of your connection to our website (IP address, date and time of connection).

4. Purposes of data processing

As Data Controller, we may collect and process your data for specific and legitimate purposes, as part of our overall mission to support students and graduates in their professional guidance and development.

We have lawful bases to process data. Lawful bases include consent (where you have given consent), contract where processing is necessary for the performance of a contract with you (e.g., to deliver JobTeaser Services you have requested), legitimate interests and compliance with the legal obligations to which JobTeaser is subject.

The personal data you provide to us is processed in order to:

- for student or graduate Members: facilitate your professional development using our Service. This includes the ability to:
  ○ apply for Job opportunities,
  ○ to register for recruitment or guidance events,
  ○ be viewed by Recruiters (when you upload your CV and give your consent),
  ○ receive automatic, customised email alerts about job opportunities and career events that meet your criteria as well as advice or information to support your professional guidance and development,
  ○ use Insights Module by sharing feedbacks about your professional experiences and interacting with other Members;
  ○ use Guidance Modules.

Our legal basis for this processing is the performance of the contract we have with you when you register to use the Service and, for some features, your consent;

- for Administrators of the Institution: support the students and graduates of your Institution in their professional development efforts. Our legal basis for this processing is the performance of the contract we have with the Institution you represent;

- for Recruiters: promote your company and publish job opportunities as well as receive promotional information from an Institution (in the case of an account associated with a Career Center) or from JobTeaser (in the case of an account associated directly with JobTeaser). Our legal basis for this processing is the performance of the contract we have with the Company you represent;
in general: assure the cybersecurity of the platform and contribute to a data pool used to report on the use of the Service (i.e. statistics) in order to develop new features. Our legal basis for this processing is our **legitimate interests** to ensure our Services are secured, optimised and continue to evolve for the benefit of our Users;

- to comply with our **legal and financial obligations**.

5. Recipients of the data

We may share your data with our authorised staff and our subsidiaries. We also use external service providers to whom we may share some of your data. In addition, depending on the services used, your data may be shared with Recruiters, Members and Institutions and their Administrators. Finally, we may need to share your data when it's required by law or for security reasons.

The personal data provided may be viewed by our employees, any subsidiaries of JobTeaser, competent authorities, or any sub-contractors of JobTeaser, strictly in accordance with the purposes described in Article 4 above, with non-disclosure agreements, and on a strict ‘need-to-know’ basis.

In addition, to participate in the ecosystem of the JobTeaser Service and to guarantee you the best possible service, you are hereby informed that your personal data may be forwarded to different parties involved in the JobTeaser Service, namely:

- Recruiters, as regards personal data about Members who apply for their job opportunities or career events, or who have chosen to upload their profile and CV on the Service;

- Members, as regards both personal data about Recruiters and Administrators of your Institution, depending on the content published by each. Members personal data can also be transferred to other Members when using the Experiences module;

- The Institution concerned and its Administrators, as regards the personal data of Members and Recruiters who connect via a Career Center.

Regarding this latter point, we would like to remind Members that if they do not wish to authorise the transmission of their data to their Institution but wish to still benefit from the JobTeaser Service, they can simply open a Member account directly on our public website www.jobteaser.com or mobile application rather than through the Career Center of their Institution. In this case, they will have access to all content on our public website www.jobteaser.com or mobile application but will lose access to the exclusive content available on their Institution's Career Center.

To allow the registration and effective support of the students and graduates of an Institution as part of their professional development efforts, the Institution may be required to provide us with some limited personal data if the Institution wishes to set up a “single sign on”(SSO) authentication system. SSO allows us to pre-fill the registration form or to update Members data within the Career Center. When a Member account is actually created, the student or graduate communicates his/her data directly to us by confirming or modifying it.

The Service is also used by Recruiters and Administrators as part of their professional activity. Transfers of data are stipulated to be necessary for the satisfactory operation of the service subscribed to by their respective employers.
Specifically, when Single Sign On (SSO) is used to connect to an external partner’s tool via JobTeaser account, a joint data controller agreement is concluded between this partner and JobTeaser for the processing related to this SSO.

6. Transfers outside European Union

The data on the platform is hosted within the European Union. In the event that your data is transferred outside the European Union, we take appropriate safeguards.

Where data transfers take place outside the European Union, safeguards are taken: either providers are located in a country whose level of protection has been declared adequate by the European Commission, or standard contractual clauses approved by the European Commission have been signed with these recipients. We may also put in place any other guarantee that complies with data protection regulation that constitutes an "appropriate guarantee" within the meaning of the GDPR.

7. Storage period

Data will be stored until the User closes his account or for a maximum of two years following the last connection to the Service. Data will be then irremediably anonymised.

As part of the service we offer, we are required to store the content that Users publish on JobTeaser, regardless of whether this is as Members, Administrators or Recruiters. As legislation requires us to do, we will store the identification data of the persons publishing such content (IP address, date and time of connection, pages viewed etc.) for a period of one year.

Your personal information will not be stored beyond the period strictly necessary, i.e. for the whole period of use of our services via your account up to the closure of your account. You can instantly close your account by yourself by clicking on the link which can be found in the “My Account” menu on the Service.

Users are informed that their personal data will be stored for a maximum of two years following their last connection to the Service.

We will contact you at the e-mail address or addresses you have provided both a few weeks before the end of that two year period as well as on the day of termination to enquire whether you wish to keep or delete your account.

At the end of those timeframes and following the effective closure of your account, your data will be irremediably anonymised. It will then be used exclusively for statistical purposes (analysis of the frequency of use of the Service's features, statistical analyses of applications in response to published offers etc.).

As regards the data of deceased persons, subject to JobTeaser being informed, that account will be closed and their data permanently anonymised, unless JobTeaser is given any other specific instruction.
8. Security and privacy

We put in place organisational and technical measures to ensure the security and confidentiality of your data.

We have taken all appropriate organisational and technical measures and all necessary precautions to preserve the security of the information described above, in particular from accidental loss, distortion, alteration and unauthorised access, use, modification and disclosure. We will ensure the integrity and availability of the data we are required to process at all times.

At a technical level, a set of strict, appropriate technical procedures and devices allow us to:

- ensure restricted access to data through access control and strict authentication processes;
- prevent cases of data piracy;
- implement an effective encryption of the data, in particular during its transmission through the use of SSL encryption;
- guarantee the physical security of the information processed.

The information is stored on secure servers.

Finally, we incorporate the protection of personal data throughout the internal organisation of JobTeaser. Clauses to ensure the effective protection of the personal data to which they may have access are written into the employment contracts of employees, and a charter, which strictly regulates the use of the resources of JobTeaser’s information system, is appended to our company rules and regulations.

9. Terms and exercise of rights

You have rights over your personal data, such as a right to access and correct your personal information. You can exercise all your rights by contacting our Data Protection Officer: dataprotection@jobteaser.com.

In accordance with data protection regulation, you have a right to access, correct, and delete your personal information, as well as data portability. You also have the right to object to the processing of your personal data, unless the data controller has legitimate grounds for processing the data. You have the right to withdraw your consent at any time, without prejudice to the lawfulness of the processing of your personal data based on your consent and carried out prior to the withdrawal of your consent. You have the right to define general or specific guidance for the storage, erasure and communication of your personal data after your death;

If your request concerns personal data processed by your Institution or data which you have decided to send to Recruiters via JobTeaser (CV, etc.) - as part of an application, for example - please contact them directly according to the methods stipulated by that Institution or those Recruiters regarding the collection or the use of your data. If your request concerns data collected or processed by JobTeaser, you can exercise your rights by writing to us at JobTeaser, 19 rue Blanche, 75009, Paris, France, stipulating "Data Protection" in the letter subject, or by emailing dataprotection@jobteaser.com.
Where required by law, we will then ask you for proof of identity to ensure that you are the owner of the data concerned in the request.

We will do our best to answer your queries regarding the processing of your personal data. If you are not satisfied with the responses provided, you may, if you wish, make a complaint to the CNIL (French Data Protection Authority) according to the terms stipulated on its website (https://www.cnil.fr) or the competent Data Protection Authority in your country.

In addition, we would also like to inform you that you are required to comply with the Data Protection Regulation, the breach of which is liable to criminal penalties. In the case where, for example, you wish to send us personal information on behalf of a third party, you will have to act in accordance with the law as regards such data.

In particular, you must refrain from any collection, misuse and, in general, from any act likely to infringe privacy or personal reputation as regards the personal information to which you have access.

10. Amendment of this Privacy Policy

Any changes to the Privacy Policy apply from its date of entry into force. We will, of course, inform you of any substantial changes.

We reserve the right to amend or to update this Privacy Policy. If we make substantial changes to the content of this Privacy Policy, those changes will be announced via a notice visibly displayed on the Service or by other means, such as the email address you provided at the time of your registration, to provide you the opportunity to review the changes before they become effective. If you object to any changes, you may close your account.

You acknowledge that your continued use of our Services after we publish or send a notice about our changes to this Privacy Policy means that the collection, use and sharing of your personal data is subject to the updated Privacy Policy, as of its effective date.

11. Use of cookies

For more information about cookies, please consult our Privacy Policy on www.jobteaser.com
